

► Drying Cabinet FT 120 VP

Floor standing, 2 060 mm

The **FT 120 VP** Drying Cabinet is our most energy-efficient and effective drying cabinet, combining heat pump technology that gives exceptionally low running costs with high capacity and simple installation. The built-in lighting gives good illumination of the 20 fold-out hangers in stainless steel. The heat pump and all of the electronics are at the top, which facilitates servicing.

Dimensions (H×W×D)	2059 × 1195 × 658 mm
Weight	189 kg
Protection class	IP 24, SEMRO- and CE-approved
Capacity	Hanging length 18 meters, normal load 6 kg, drying time 60 min
Noise level	55 db(A)
Electrical connection	400V 3N AC 50Hz
Quick drying	50 g water per minut (6 kg 50% residual moisture)
Power consumption	0,35 kWh per kilo dry weight
Drying system	Heat pump technology - requires no extract air ventilation
