

Passad DC 60

The market's most energy-efficient drying cabinet

With improved heat-pump technology and the natural refrigerant R290, the Passad DC 60 dries textiles quickly and gently in a closed system. No exhaust ventilation, no drainage – just plug it in, save energy, and reduce wear on textiles with minimal climate impact.

- **Environmentally friendly technology**

New refrigerant with very low environmental impact (GWP 0.02)

- **High load capacity**

Dries up to 11 kg of laundry

- **Energy-efficient operation**

Consumes only 2.31 kWh to dry 11 kg of textiles

Product Information

Drying system:	Heat pump
Noise level (dB):	45
Control panel:	Touch
Electrical connection:	230V 1N 50Hz
Dimensions (W × D × H):	595 × 675 × 1930 mm
Weight:	95 kg
Overheat protection:	Yes
Total hanging length:	16 m
Refrigerant:	R290 (GWP 0.02)
Door hinge:	Right-hinged*

Drying Performance

Load:	Drying time:	Energy consumption:
5,5 kg	2 h	1,16 kWh
11 kg	4 h	2,31 kWh

NIMO

*Can be changed with accessory kit.
